about us

We are a non-profit foundation that believes in a world where every person can have the opportunity to **unfold their full potential** for **fundamental growth and development.**

We encourage collaborative work in order to achieve **synergy**. We add to the **implementation of our axes**, initiatives that wish to generate opportunities, that are concerned about **social inclusion** and the wish to **promote multiculturalism.**

mission

Promote initiatives from our lines of action that allow people at all stages of their lives to find opportunities for growth, especially those who are socially, economically, educationally and/or culturally vulnerable.

vision

To become a benchmark based on the impact generated by our actions around the generation of opportunities, promotion of multiculturalism and synergy, always with the aim of enabling human beings to develop their capabilities.

values

We are moved by a sense of solidarity with those who need it most. We do everything possible to provide that opportunity which allows people to improve their quality of life and integral growth. Always fostering a spirit of collaboration among all our partners based on **honesty, transparency, commitment, solidarity and synergy.**

our AXES OF ACTION

The axes allow us to provide attention to the different problem situations that people face in the different stages of their lives. Thanks to these axes we can be an engine of transformation that provides tangible changes. Within each axis of action we work with targets that allow the generation of opportunities for our beneficiaries.

cultural

social and humanitarian development

sustainability

cultural axis

Culture as a means to connect the world.

From this axis, cultural, artistic, musical, philosophical, gastronomic and literary promotion activities are planned, among others. The cultural vision of Puentes aims to break the hegemonic perception of cultures and reinforce local identity, its elements and actors.

social and humanitarian development axis

Grouping the initiatives of strategic alliances, Puentes Interculturales from its social and humanitarian axis plans to **generate support activities for the difficulties of society, promoting social inclusion and the reduction of inequality, pursuing the aim of creating more favorable conditions for economic and social development from an equitable perspective.**

In this axis, we attend to all kinds of situations that do not allow a person to develop.

comprehensive training axis

The training vision of Puentes Interculturales is based on the development of inclusive dynamics in the processes of socialization, learning and coexistence.

We develop training activities for our beneficiaries that address issues such as: human rights, sustainable development of communities, sports, inclusion, cultural diversity and many more. We work to improve and update teacher training and education inside and outside the classroom in formal and informal educational contexts. Thanks to partnerships we can provide opportunities for educational growth through scholarships that impact the professional development of the beneficiaries.

sustainability axis

In order to meet the needs of different generations

Fundación Puentes Interculturales guarantees with this axis a **balance for the growth of social welfare** and all the factors involved, through actions that generate alliances to strengthen the cohesion and stability of specific social groups. With this axis we can **develop strategies that benefit people: fundraisers, concerts, events, affiliations, among others.**
